**Neil:**

There have been a couple of questions (& clarifications) regarding carrying children aged 7 and under in historic cars.

Tegan will push the relevant part of the Federation document onto the web site for all to see, read & enable those with children to be sure of being compliant.

In addition to the federation paper... In SA – any child under 7 MUST be restrained in any vehicle. We need to seek further clarification on under 7's sitting in the front seat when there are no restraints in back seats (in a vehicle with no airbags) and the child is of legal height.
